

Call For Participants

Improving memory with
combined brain exercise and
stimulation

7 day(s) to complete

Cash

Experiment

Birmingham University, Hills
Building, Edgbaston Park Rd,
Birmingham B15 2TT, Regno
Unito

University of Birmingham

We recruit healthy adults (aged 55-75) for a study at UoB investigating how combined brain stimulation (tCS) and training affect memory performance. Participants will be asked to complete several computer-based tasks whilst experiencing stimulation. The experiment consists of 7 sessions (2h the first and last, 1h the ones in between).

Compensation will be £100 total for completing all the sessions.

Please email or go online for further information.
