A study of out-of-body experiences

5 min(s) to complete

Prize draw for £50 amazon voucher

Online Questionnaire

Online

University of Sheffield

We are carrying out a study to investigate the brain basis of out-of-body experiences. We are interested in hearing from everyone, regardless of whether or not you have ever had an out-of-body experience. The study consists of two parts. The first part is the completion of a short questionnaire (with prize draw); some of those who complete the questionnaire will be invited to further (reimbursed) study where they will complete perceptual tasks while attached to our Electroencephalography system.
