Can brain stimulation improve decision-making? Part 2

90 min(s) to complete

£15 Amazon voucher for 1.5 hours of your time

Experiment

Online

University of East London

Important note if you have taken part in the 1st of this study you can not take part in this one.

In this study you will take part in a 1.5 hour session. You will sit in a comfortable chair with a few electrodes on your (a bit like wearing a swimming cap) for 20 minutes whilst your brain is stimulated. We will then take the electrodes off and you will start a few short computer tasks which include brain-teasers and a memory test.
