## Improving the effectiveness of facial composites

20 min(s) to complete

£2 Amazon voucher

Questionnaire, rating of photographs

Online

University of Central Lancashire

This study aims to improve the quality of facial composites composed by witnesses to crimes. Composites are pictures of faces constructed from a person's memory, and are used by police to help solve crime. The study involves looking at a series of facial composites of English footballers for you to or rate compared to a photograph. The study takes about 10 minutes to complete.
