University of Memphis (incl. Lambuth)

The purpose of the study is to explore factors related to the development of cultural competence in psychology doctoral students. Participation in the study involves completing several questionnaires that will take approximately 20 minutes. This study is open to participants who are doctoral students in license eligible counseling and clinical psychology programs (Ph.D. and Psy.D. degrees) accredited by the American Psychological Association (APA). Students must also be United States citizens.
