University of Nottingham

This study looks at coins of King William the Conqueror and his successor William Rufus. The coins reveal stories of England at the time of the Norman Conquest. Participants will read some of the stories, and then fill in a questionnaire to say what they thought of them. Many of the coins currently belong to museums, so the questionnaire will also investigate how the museums could use their coins to present interesting displays about the Norman period. The study is part of ongoing PhD research.
