

Call For Participants

Influences on exercise
behaviours and attitudes in
young people

45 min(s) to complete

Sincere Gratitude

Online questionnaire and
discussion

Online

Loughborough University

**** Do you have a child aged 12-16 years?***
We have created a questionnaire to find out about the different factors that may impact young people's feelings about exercise. We would love for your child to test it and let us know what they think.

Your child will be asked to simply complete our questionnaire and give us some feedback via MS Teams.

The whole process will take no longer than 45 minutes and they have the chance to contribute to crucial research in the process.
