

Call For Participants

Migrant students' experience
of ability grouping in
Secondary English class

90 min(s) to complete

Sincere Gratitude

Interview

London, UK

The Open University

The researcher wants to shed light on the lived experiences of migrants who were streamlined, setted or grouped by ability in English classes in secondary education in the UK. The aim of the study is to provide a platform to describe and reflect on their experiences as first generation migrant students. Considering UK's rich history of migration and colonialism, this subject appears insufficiently explored. Format: 30 min confidential individual interview, public location.
