Final Year Research Project

10 min(s) to complete

Sincere Gratitude

Online Questionnaire

Online

Goldsmiths University of London

Previous research suggests that many different factors, such as age, race, cultural backgrounds, sexuality and etc., influence how we perceive other people and how we act towards them. This study aims to investigate to what extent this is true. Due to the nature of the experiment, I will not give further information on what is being tested, but you will be fully debriefed at the end.
