3D Tune-In games for hearing aid users: Game evaluations

45 min(s) to complete

£10 Amazon voucher

Game play plus questionnaire

Online

University of Nottingham

Adult hearing aid users are invited to evaluate games/apps designed to help understand more about hearing aids and hearing loss.

The 3D Tune-In project aims to help people use neglected hearing aid functionalities that could greatly improve their quality of life and their interactions with other people and their surrounding environment. We will be developing digital technology applications to help people learn about different hearing aid functionalities.
