Exploring the recovery process after treatment for cervical cancer

60 min(s) to complete

Travel costs to and from Loughborough University will be reimbursed. Participants will also...

Online Questionnaire and a Focus Group

Loughborough, UK

Loughborough University

Researchers at Loughborough university would like to speak to women who have been treated for cervical cancer in order to better understand the physical and psychological processes of recovery in the months and years after treatment. They are interested in finding out how factors such as physical activity may help with recovery and how women could include regular physical activity into their lives.
