

# Call For Participants

## Implicit/Unconscious Attitudes in the UK

10 min(s) to complete

Prize draw for a £20 Amazon  
voucher. Individual feedback  
provided.

Experiment

Online

University of East London

We want your help to understand whether clinical psychologists attitudes towards race, weight, age, sexuality and gender-career are similar to other adults living in the UK. Attitudes are feelings we have about things: whether it is good or bad, pleasant or unpleasant, positive or negative. Attitudes we are not aware of can affect our behaviour.

If you decide to take part, you will be asked to complete at least one online task, but you can complete up to five different tasks.
