What role does Exercise play in the Ageing brain?

2 day(s) to complete

Cash

Experiment

Nottingham NG7 2RD, UK

University of Nottingham

We are investigating the effect of exercise on brain health in ageing, does exercise change the way the brain ages? We are looking for healthy men over 70 years old who either do NOT exercise regularly, or power athletes/sprinters. It is a multi-day study involving exercise tests, cognitive tests, and MRI scans of the brain, heart, and body.
