Is the Use of Smartphones and Tablets in Hospitals Useful?

10 min(s) to complete

Sincere Gratitude

Online Questionnaire

Online

Friedrich Alexander Universität Erlangen Nürnberg

Mobile smart devices like smartphones, tablets or smartwatches have become part of our everyday life. Can they also make our health systems more effective and support healthcare professionals in their everyday practice?

This study is surveying healthcare professionals about their experiences and opinions on mobile device use for professional purposes.

Our goal is to develop new digital support
