

Call For Participants

BI-MODAL: Measuring moods
and decision-making
longitudinally (fMRI scan)

300 min(s) to complete

45 pounds for scan / 17.50 pound
for smartphone study plus free
picture of your brain!

One fMRI scan and 2-week
smartphone study (approx. 1
hour per week)

Wellcome Trust Centre, 12 Quee
Square, London WC1N 3AR, UK

University College London

We would like to invite you to participate in a neuroimaging study, involving one fMRI scan visit and some decision making games as well a short 2-week smartphone-based study exploring the relationship between life events, mood, and decision-making over time! The aim of the study is to help identify new ways to manage mood.

If interested, you can request a digital copy of your brain!

****If you'd like to take part, please let us**
