MDMA: the love drug? A qualitative study

1.25 hour(s) to complete

Sincere Gratitude

Diary and short interview - completed remotely/online

Online

London South Bank University

We want to hear about the experiences of people who take MDMA (ecstasy) with their partner and how they feel this influences their relationship.

The study will involve keeping a diary for a week around the time you next take MDMA with your partner and an optional, informal interview (30-45 mins) over Skype afterwards.

There is no pre-judgement within the research that ecstasy is either harmful or
