Understanding Perception of Climate Change and Representation in Sheffield

25 min(s) to complete

Sincere Gratitude

Interview

Sheffield, UK

University of Sheffield

The study aims to understand how climate change is perceived by the people of Sheffield, UK and how the different ways it is represented affect how people value the importance of getting involved in collective climate action.

the study will use questioning, ranking exercises, photograph responses and participant's own ideas to aid the generation of a framework aimed at promoting community-based climate action in order to increase the number of Sheffield's residents
