

# Call For Participants

Driving behaviour in the  
presence of an audience.

10 day(s) to complete

Prize draw for a £50 voucher of  
your choice.

Experiment

Online

University of Exeter

The study would require answering a few brief demographic questions, and then downloading an app onto your smartphone that automatically records some statistics regarding your driving behaviour. You would be required to fill in some information daily regarding any passengers you have in your car when you drive (i.e. their age, their sex, and their relationship to you).
