Can Augmented Reality
improve pupils interest
towards STEM?

20 min(s) to complete

Sincere Gratitude

Online Questionnaire

Online

City University London

The purpose of the study is to investigate how Augmented Reality can be used to improve pupils interest towards STEM (Science, technology, Engineering, and Mathematics) subjects.

A prototype application 'CleverBooks Space' is used for this study, and it focused on topics like astronomy, space exploration, and space technology.

Thank you!
