Representations and Perceptions of Individuals with Facial Disfigurement

8 min(s) to complete

Sincere Gratitude

Online Questionnaire

Online

University of East London

This study investigates how different representations of people with facial disfigurements impact how they are perceived. Representations are specifically referring to the use of audio/video clips in campaigns to boost awareness of facial disfigurement, as well as the tone of the message within the clip. This is an online anonymous survey which takes about 5-10 minutes. To participate, you need only be over the age of 18 with an adequate command of the English language.
