FLARe: Fear learning and
Anxiety response (APP study)

2 hour(s) to complete

£15 bank transfer

Experiment

Online

King's College London

In this study, we are interested in how people learn to be anxious of new things, and how they learn that some things that make them feel anxious might not always be unpleasant. We will explore this using mobile phone technology, as we will ask you to complete a fear learning task using a mobile phone app that involves looking at pictures and sometimes hearing loud noises. We will also ask you to complete some questionnaires.
