Making your mind up:
Individual differences in moral
decisions

30 min(s) to complete

Prize draw - a chance to win £40
of love2shop vouchers

Online Questionnaire

Online

Canterbury Christ Church University

This study aims to analyse individual
differences in people's moral decisions.

You will be presented with a series of moral
dilemmas involving life-or-death situations
and asked about what you would do in each
situation. You will then be asked to complete
a short decision-making task and then you
will be asked to provide some general
information about yourself for the purpose of
identifying differences in decision making
behaviour.
