University of Bristol - Voice Assistant Study

12 month(s) to complete

Amazon Echo Show

Interview, Surveys

Online

University of Bristol

This project is looking at the impact of voice assistant technology (Amazon Echo Show) and how it can impact social isolation in older adults who are living with others, as well as older adults who may also be self-isolating due to covid-19. This study will run for up to 12 months and will involve interviews and surveys. Interviews will take place using the Echo Show, or over the phone. FOR MORE INFO: <https://tinyurl.com/yayfm448>
