Do Employees With Health Conditions Need Health Behaviour Support At Work?

30 min(s) to complete

Sincere Gratitude

Online Questionnaire

Online

Loughborough University

The purpose of this study is to undertake research that has the potential to improve and lengthen the working lives of people with long-term health conditions including; heart and lung disorders, cancer, musculoskeletal disorders, anxiety, depression, stress, diabetes and 'other' conditions. People with long-term health conditions are at higher risk of not participating in work and becoming unemployed, this project has the potential to inform working practices and health interventions at...
