

Call For Participants

Measuring autistic traits in
autistic and non-autistic
individuals

40 min(s) to complete

Sincere Gratitude

Online Questionnaire

Online

University of Gothenburg / Göteborgs Universitet

We are seeking adult participants across all gender identities, nationalities, ages (18+), and neurotypes (autistic and non-autistic). You will be presented with a list that aims to capture female autistic traits and answer which items resonate with your personal experience of being you. Finally, you will complete a measurement of autistic traits. On the concluding page of the survey, you will have the option to print or download a document containing your score summary.
