Bath Spa University

Do you or a loved one live in a care/assisted living home? Interested in taking part in a research study on well-being?

Residents without dementia (aged 65 and over), or close friends, family, or staff are invited to provide their opinions on a list of questions associated with well-being. Participation should take around 25-45 minutes, and will help contribute towards the development of a new well-being questionnaire for older adults living in residential settings in the UK.
