Young People's Experiences of Mobility in Post-Separation Families

2 hour(s) to complete

Sincere Gratitude

Interviews

United Kingdom

University of Birmingham

Lots of young people spend time moving between their parents' homes or travelling to spend time with their parents elsewhere because they don't live together any more. However, there has been very little research conducted into this issue. Therefore, this study is interested in talking to young people, aged 11-18, asking questions of what they do during their journeys (including the preparing, leaving, travelling and arriving) and what their feelings and opinions about them are.
