6GX, UK

Manchester Metropolitan University

If you between 35 and 61 years old, you are invited to partake in a study investigating attitudes to UV exposure and sun protection. The study will consist of discussing the negative effects of UV exposure, and the positive effects of sun protection; you will also complete measures of sun protection and UV exposure immediately, 4 weeks and 6 months afterwards. The initial session require you meet with the researcher at Manchester Metropolitan University.
