We are looking for participants with the experience of persistent low mood/depression to take part in our study on L-DOPA and decision-making. It is a 3-part study (each part will be completed on different days). Session 1 will consist of some questionnaires and structured interviews. Sessions 2 & 3 will consist of taking a drug (either placebo or L-DOPA) and completing a decision-making task in an MRI scanner (brain scanner). If you complete all 3 sessions, you will be paid £115 - ...
