Online Questionnaire

Online

King's College London

As part of a psychology research project at King's College London we are seeking participants with a diagnosis of Attention Deficit Hyperactivity Disorder (ADHD), aged 16-55 years who live in the UK to participate in an online survey examining the relationship between exercise patterns and ADHD. We are seeking participants who use medication for their ADHD and those who don't. Participation is fully online and requires you to complete an anonymous survey which should take around 25...
