Birmingham City University

This study uses a variety of questions and scales to understand how voters attitudes and perceptions toward Brexit have changed since 2016. The combination of multiple choice questions, open essay-style questions and well-tested ratings scales is designed to provide the researcher with a rounded, nuanced understanding of voters attitudes and perceptions, and, to give respondents the fullest opportunity to express their thoughts and feelings on the topic. This will take between 5 and 10 minutes.
