Sandiacre, Nottingham NG10
5QG, United...

Nottingham Trent University

The purpose of this study is to investigate the experiences of couples undergoing fertility treatment at Nurture Fertility. If you agree to the study we would talk to you about your journey and, with your permission, video-record your consultations. The video would be used by the researchers and you would not be identifiable as your faces would be blurred. Your anonymity is guaranteed. We hope the study leads to improvements in fertility care and helps other couples through their journey.
