## Parent perceptions of animal therapy

15 min(s) to complete

Sincere Gratitude

Online Questionnaire

Online

University of Derby

Parents of children and young people (6 to 16 years) who live in the United Kingdom are needed to give their opinion on animal therapy using dogs. You don't even need to use animal therapy to take part. The survey contains demographic questions, questions exploring perceptions of therapy efficacy, and a scale on child anxiety. Can be completed multiple times, once per eligible child!
