Experiment

26 Bedford Way, Bloomsbury,
London WC1H 0AP, UK

University College London

We are looking for children aged 7-10 years to participate in an hour-long experiment, during which they will carry out a mildy-stressful school-like task, such as writing a test. Children will then receive coaching on positive strategies they can use to cope with similar situations they may encounter in their daily lives.

Children will receive a free handbook with helpful tips they can use to feel better when they are sad, stressed or angry, and a £15 Amazon voucher.
