

# Call For Participants

## Brain vascular function in pre- and post-menopausal women

6 hour(s) to complete

Sincere Gratitude

Experiment

Birmingham B15 2TT, UK

University of Birmingham

The aim of this study is to examine if brain blood vessel function changes after menopause. Participants will be asked to attend the University of Birmingham on either one occasion (if post-menopausal) or two occasions (if pre-menopausal) where you will be asked to complete non-invasive vascular function tests. Each visit will last no more than 3 hours, including familiarisation to all functional tests used in the study.
