The Role of Personality in Antisocial Cognition

10 min(s) to complete

Sincere Gratitude

Online Questionnaire

Online

University of York

This study aims to investigate the relationship between personality and antisocial cognition. It takes less than 10 minutes to go through the two parts: (1) sentiments towards crime and offending, and (2) a personality inventory.

Responses to the questionnaire will be treated in confidence and will be collected anonymously. More details can be obtained via the link below.
