Attitudes towards Unwanted Sexual Touching in the Workplace

20 min(s) to complete

Sincere Gratitude

Online Questionnaire

Online

University of York

This research is looking at customer-to-employee sexual harassment in the workplace with a focus on hospitality and people's wellbeing. The study is designed to investigate how people would act and feel when put into various situations at work. We hope to find information that can be used in the development of staff training modules. Ultimately, the aim would be for these modules to be incorporated into employee's work inductions. The experiment comprises an online questionnaire.
