Acculturation, Changes in  
Dietary Behaviour and Body  
Image Satisfaction

25 min(s) to complete

Sincere Gratitude

Online Questionnaire

Online

Middlesex University

The purpose of the present study is to investigate the relationship between acculturation (and length of time in the UK) among Asian and European university students studying in the UK and changes in their dietary behavior as well as their body image satisfaction by completing a questionnaire. Acculturation is defined as the process whereby individuals adapt and learn the behaviors, attitude, language, thoughts, values and beliefs of a new group of people in another country.
