How does memory load affect processing of abstract statements

3 min(s) to complete

Prize Draw to win one of two £10 amazon vouchers

Online Questionnaire

Online

University of Warwick

The study investigates people's ability to process abstract statements. Some participants were first be asked to remember a list of words to see how memory load affects this processing. All participants are asked to rate how profound they believe 15 statements are.

After taking part you have the chance to be entered to win one of two £10 amazon vouchers
