Procrastination and Creativity: Creative Degrees Students' Experiences

60 min(s) to complete

Sincere Gratitude

Semi-structured interview

Online

Manchester Metropolitan University

Are you a student working towards a creative arts degree? Are you interested in participating in a research study?

According to research 80-95% of students admit to having engaged in procrastination at one point or another.

Procrastination is typically viewed as maladaptive behaviour, however there are evidence that procrastination may be a legitimate learning strategy for some students and may even lead to a better creative performance. We would like to hear about your personal experiences
