

Call For Participants

Investigating the effects of cortisol on the storage of emotional memory

4 hour(s) to complete

£37 cash

Experiment

1-19 Torrington Pl, Fitzrovia,
London WC1E 7HB, UK

University College London

You would be asked to come to UCL on a single occasion. As part of the study you watch a 'stressful film', complete some questionnaires and computer tasks. You should be aware that the film contains graphic scenes including sexual and interpersonal violence which some people might find distressing. After the visit you will need to fill in an online diary and an online questionnaire one week after your session at UCL so you must have reliable daily access to the internet.
