Survey - Housing Preferences of the Ageing Society

5 min(s) to complete

Sincere Gratitude

Survey

Online

Liverpool John Moores University

The aim of this project is to examine how the housing needs and preferences of an ageing society can be met through analysis of housing environment characteristics and the UK consumer preferences. The project will seek to identify what the preferences of the ageing society are and which are necessary to be incorporated into new housing developments. Ultimately the aim is to be able to aid housing development in order to ensure new housing is adaptable to the needs and preferences of the UK.
