

Call For Participants

Maternal loss faced by men during childhood and their attachment styles now

2 hour(s) to complete

Sincere Gratitude

Online Questionnaire & Online Interview

Online

Leeds Trinity University

This study is looking for men over the age of 18 (with no upper age limit) to complete an attachment style questionnaire and take part in a 1-1 interview with myself. There is a big gap in research when trying to understand the impact maternal loss during childhood has had on men's adult attachment style, therefore that is what this study aims to look at.
