Data Collection Study on Parental Shared Book Reading

15 min(s) to complete

USD 5.00 amazon gift card & caterpillar made with Japanese origami paper

Video recording and questionnaire

Online

Keio University

As part of my master's thesis, I am conducting a cross-cultural comparative study on Japanese and American parents reading picture books to their children. In connection with this study, I would like to ask your help in providing a video recording of you reading to your child(ren) (no faces need to be shown) . The conversation data collected for this study will be used to find interesting phenomena in shared picture book readings routinely performed in Japanese and American homes.
