BEYOND EHR SYSTEM BARRIERS: INTEGRATING BIG DATA ANALYTICS

30 min(s) to complete

Sincere Gratitude

Open-ended semi-structured qualitative interviews

Online

Colorado Technical University

The purpose of the study is to explore the experiences of health IT professionals and users of electronic health or medical record (EHRs/EMRs) systems, and how these experiences may impact their views on integrating healthcare analytics. The study explores the potential of integrating analytic functionalities with existing EHRs. The researcher will introduce 5 questions for discussion with participants.
