Fathers' experiences of their sons' eating disorder

60 min(s) to complete

Sincere Gratitude

Interview

United Kingdom

Regent's University London

This study aims to gain a better understanding of how fathers experience having a son with an eating disorder. The knowledge gained can contribute towards raising awareness about fathers' experiences and potential needs. This could help tailor support services to fathers who have sons experiencing an eating disorder. Interviews held all over the UK - at a time and place convenient to you
