

Call For Participants

RESTAND - an emotional decision making drug study

7 day(s) to complete

£200 + chance to win extra £10

Experiment

Oxford OX3 7XA, UK

University of Oxford

We are looking for volunteers aged 18 - 65 who are currently feeling depressed and not taking antidepressant treatment or undergoing psychological therapy to participate in a study investigating the effects of a new medication on emotional decision making.

The study involves taking medication for 7 days and four visits which involve computer-based psychological tasks, questionnaires and one brain imaging scan.
