

Call For Participants

Heavy drinkers needed for
paid drug research at UCL

6 hour(s) to complete

Cash total of ~ £80-£100

Experiment

1-19 Torrington Pl, Fitzrovia,
London WC1E 7HB, UK

University College London

We are recruiting heavy drinkers who want to cut down to take part in a study that will help us understand the brain chemistry of learning and memory related to heavy drinking.

As part of this study you may be given a dose of intravenous ketamine, which is an anesthetic drug with strong psychological effects, or a placebo at UCLH under the supervision of a trained anesthetist.

The study will take place over 3 sessions in

Find out more online

Poster printed on 06/05/2024 Study expires on 31/05/2017
