

Call For Participants

MUMS OF TEENAGERS! Tell us what you think in a simple survey

30 min(s) to complete

All mothers who complete the survey will be entered into a draw to win a £50 LEISURE GIFT..

Online Questionnaire

Online

University of Warwick

We are interested in seeing how families today get on, and how families with one child compare with those with more than one. The study you are being invited to participate in will help to find out more about how families with only children differ from those with more than one child during the teenage years. With growing numbers of couples having only one child, this would be important and relevant not just for parents and academics, but for all those who work with children.
