

Call For Participants

Do Mac users do it differently?

10 min(s) to complete

Sincere Gratitude

software-based questionnaire

Online

Victoria University of Wellington

How do you organise the files and folders on your computer? Could this be influenced by your personality, or by Mac OS? This research project aims to understand how Mac users manage their files and what factors may influence this. At the end of the ~10 minute-long anonymous participation, you will receive a description of you file and folder storage and organisation, as well as the results of the questionnaires, and can compare your results to the averages on our Website.
